

### Defect Description:

User is able to create profile with non US phone number and phone number is not shown on profile

### Steps to reproduce:

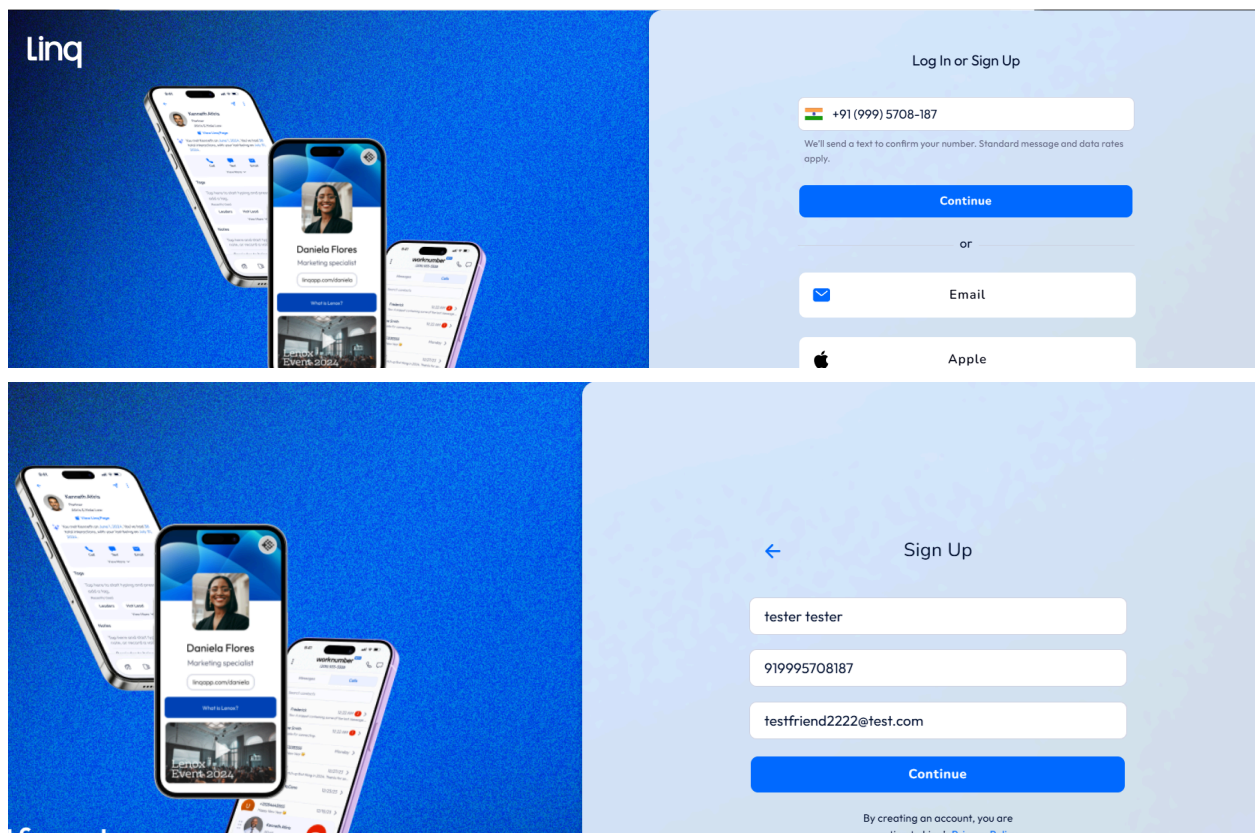

1. Go to <https://lingapp.com/welcome>
2. Enter an Indian phone number(919995708187) and click Continue
3. Enter only first name,last name, email address and click continue
4. Proceed and and complete the page creation
5. Check if the given phone number is shown in profile

### Expected result:

1. User should not be able to create profile with non-US number
2. Entered phone number should be shown in profile after profile is created

### Actual result:

User is able to create profile with non US phone number and phone number is not shown on profile.
