

Defect Description:

User is able to create profile without last name and unwanted number is added on name.

Steps to reproduce:

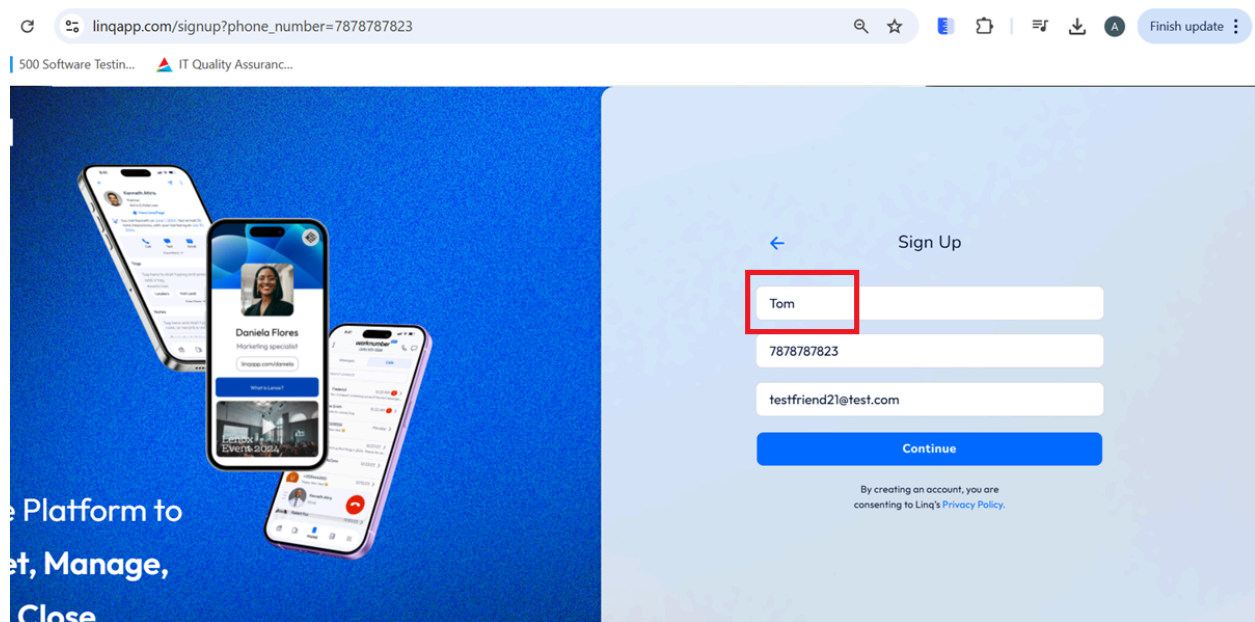

1. Go to <https://linqapp.com/welcome>
2. Enter a new phone number and click Continue
3. Enter only first name, email address and click continue
4. Proceed and complete the page creation
5. Check how the first name is shown on profile

Expected result:

1. User should not be able to create profile without last name
2. Unwanted number should not be added to the name in profile

Actual result:

User is able to create profile without last name and unwanted number is added on name.
