Defect Description:
Contact info is not removed from the form after deletion

Steps to reproduce:
1. Go to https://linqapp.com/welcome
2. Click 'Edit Contact' link
3. Click 'Add Contact Information' button
4. Click 'Phone Number' option
5. Select 'Phone Type, then enter valid phone number and Click 'Save' button
6. Click 'Edit/Delete' option for phone number
7. Click 'Delete' button and click 'Delete' on confirmation popup as well
8. Check if phone number is removed from the form

Expected result:
Phone number should be removed from the form

Actual result:
Phone number remains on the form and an error is shown on trying to delete again.
Note: Same issue happens for email, address.. etc.

Error on deleting again
