Defect Description:
User is able to save changes even when there isn't any change made

Steps to reproduce:
1. Go to https://linqapp.com/welcome and login
2. Click 'Edit Contact' link
3. Click 'Save Changes' button without make any changes
4. Check if the action is successful.

Expected result:
Ideally the 'Save Changes' button should be disabled when there aren't any changes.
Updating this is unnecessary use of the database.

Actual result:
Users are allowed to complete the action without any changes being made.
